

# 2013 INTERNATIONAL WORKSHOP ON ENVIRONMENT AND ALTERNATIVE ENERGY

*"Increasing Space Mission Resiliency through Sustainability"*

Frascati, Italy – October 22 - 25, 2013

## Mark Your Calendars!

The National Aeronautics and Space Administration (NASA) and European partners are holding an International Workshop on Environment and Alternative Energy, October 22 - 25, 2013 at European Space Agency's (ESA) ESRIIN facility in Frascati, Italy. An exciting program is being planned that will include presentations on current issues, progress on those issues, and technological solutions, from research and development to commercially available technologies, with a view toward collaboration.

This year's workshop will have a unique combination of technical presentations and discussions including:

- Increasing Space Mission Critical Ground Infrastructure Resiliency through Sustainability
  - \* Energy/Water Security Measures
  - \* Other Infrastructure Resiliency Measures and Analytical Tools
- Environmentally-Driven Changes to Aerospace Materials and Process Management:
  - \* Corrosion Protection
  - \* Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) Regulation
- Student presentations on related international and domestic research

## Workshop Registration

Although there is no cost to attend the workshop, registration is required. For details visit: <http://teerm.nasa.gov/workshop.htm>
